TITLE OF INVENTION: Human and Rat Families of Neuronal Acid-Sensitive
TITLE OF INVENTION: Cationic Channels, Their Cloning and Applications
FILE REFERENCE: 989.67069
CURRENT APPLICATION NUMBER: US/09/360,197
CURRENT FILING DATE: 1997-07-23
PRIOR APPLICATION NUMBER: 09/129,758
PRIOR APPLICATION NUMBER: 60/095,408
PRIOR APPLICATION NUMBER: 60/095,408
PRIOR FILING DATE: 1998-08-05
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      1681
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          1685
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  1625
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       1561
